

THE BAIT STATION LIBERATION GUIDE

NYC, like most cities, uses an excruciating class of poisons called anticoagulants to kill rats and mice slowly, over days or weeks of internal bleeding. The poison is deadly to the rodents themselves, and often to the animals who eat them. For all that suffering, it lowers their numbers only a little, because the population is capped mainly by territory and food, not by poison. Killing the adults only gives the survivors room to breed, so it may even mean more very young rats, fighting and starving over the same scraps.

These stations are a blight on any city that uses them. If you can legally remove the poison from one, do. This guide will show you how to open them.

1

LOOK DOWN THE KEY

side and end view of each

SIDE**END VIEW**

**PROTECTA LP**

the 2-prong key: flat BRASS fork, tips at 90 degrees to each other

**PROTECTA EVO**

the EVO key: BLACK arched tab. The end is one WIGGLY ribbon, not separate fins

**AEGIS RP**

the Aegis key: BLACK, ribbed. The big oval is a GRIP hole. The tip is a plain oval.

**EZ-KLEAN**

the VM key: GRAY fob. The same prong twice, turned 30 deg. Not a mirror image

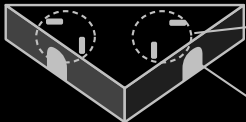

All four keys sell as one cheap pack online.

Search "bait station keys".

2

PROTECTA LP

Bell Labs, 13 x 9 x 3³/₈ in

TWO locks
each a PAIR of slots,
so four holes in all

2-in entries
one at each end

flat triangle

lid LIFTS OFF

the hole

The 2-prong key

BRASS, tips at 90 deg

SPOT IT

The flat triangle that tucks along a wall. Two locks on the top face, four slots in all. The lid lifts clean off.

OPEN IT

- ①  Tabs face the **INSIDE** edge.
Push straight down, firm.
 - ②  Tip the key top **AWAY** from the box. That lock lets go.
 - ③  Now the second lock.
 - ④  Lift the lid straight off.
- ⑤  **Shut: press both sides till they CLICK.**

3

PROTECTA EVO

Express, the heavy armored one

wiggly keyhole

in the **SIDE** of the lid,
with a little U-shaped
ledge molded below.

floor-level entry
one at each end

hinged cover

very heavy

the hole

The EVO key

BLACK tab, wiggly end

SPOT IT

Chunky rounded shell with a hinged cover. It hides a concrete block, so it is heavy for its size.

OPEN IT

- ①  Match the pattern and push it straight **IN**. No turning at all.
- ②  The cover usually pops itself. If not, lever it with the key.

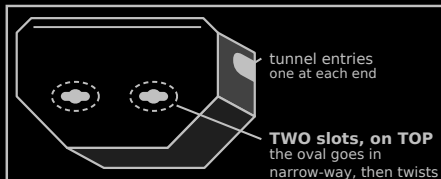

Shut: press both sides till it SNAPS.

4

AEGIS RP

Liphatech, 12 $\frac{7}{8}$ x 7 $\frac{7}{8}$ x 4 in

low box

hinge at back

The Aegis key

BLACK, plain oval tip

SPOT IT

A low box, wider at the back and only 4 inches tall. The lid is hinged and opens away from the wall.

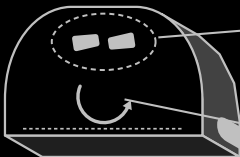

OPEN IT

- ①  Slide the oval in narrow-way.
 - ②  TWIST it. The oval spreads four spring flanges and frees the lid.
 - ③  Now the second lock.
 - ④  Swing the lid up and back.
-  **Shut: drop the lid, press till it clicks.**

5

EZ-KLEAN

VM Products, 12½ x 8¾ x 3¼ in

TWO slots, on TOP
the SAME slot twice,
turned round 30 deg

molded arrow
turn the way it points

flattest one**raised front lip**

the hole

**The VM key**

gray fob, twin prongs

SPOT IT

The flattest box out here. One arched entry on each side, set opposite each other.

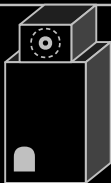

OPEN IT

- ①  Both prongs into the two slots.
Press down **HARD** and hold.
 - ②  Turn it 30 degrees, the way the
molded arrow beside it points.
 - ③  Tug it toward the **BACK**, then lift.
- ⬆️ **Shut: press both sides till it clicks.**

6

TWO ODD ONES

neither takes a key off your ring

JT EATON 902

It STANDS UP. Everything else here lies flat, so that alone tells you what it is.

Bait hangs on a rod inside the tube. Two entries, low down, one on each side.

hex socket

ONE screw. Hex key COUNTERclockwise.

JT Eaton replacement part XHEXKEY-G.

TOMCAT RAT STATION

Squarish, about 6 in tall, a see-through window in the lid, and a molded living hinge.

NO KEYHOLE AT ALL.

It just opens. Some get zip-tied or screwed shut.

FINAL NOTES

GLOVES ON BEFORE YOU START

Double bag the bait before disposing of it.
Wash your hands when you are done.

SCAN THESE

NYC RAT DENSITY MAP

Find likely poison locations.

SAFE DISPOSAL EVENTS

Double bag anything you take out and bring it to a NYC SAFE Disposal Event. If you cannot, put the bagged bait in the trash.
